

Can Christians Be Nationalists?

A new booklet from Faithful Nation Ministries that addresses the most pressing political issue of our day: the conflict between nationalism and globalism.

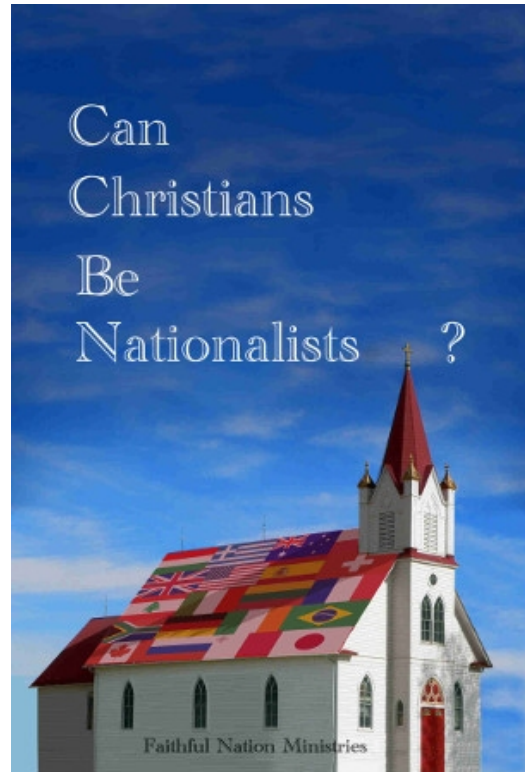

Download or read the booklet online at faithful-nation.com/books

What is nationalism? What is globalism?
Is nationalism "racist"?

Christians must make a thorough Scriptural investigation of these questions and decide where God wants us to stand. Unfortunately the vast majority of today's pastors have decided to listen to the Marxists and globalists rather than the plain teaching of the Bible and our founding fathers.

In *Can Christians Be Nationalists?* we demonstrate that:

- Ethno-nationalism is the Biblical model for political organization.
- Biblical immigration law discriminates based on race and national origin.
- America was founded as a white ethno-state.
- American immigration law discriminated against non-whites up until the 1960s.
- Racial differences are real and are part of God's created order.
- The Church's mission to make disciples of all nations **does not** imply that we must live under a global communist system.
- Non-white immigration is the greatest weapon liberals have for undermining traditional America.

Nationalism is the only political option that can actually restore Christian America, and when conservative Christians denounce nationalism, they are helping to build the socialist nightmare. The most important factor in this conflict is which side the Church will take. It is your choice whether you side with the Bible and the Christian tradition in affirming godly nationalism, or throw in your lot with the Christ-hating globalists who want to destroy everything we hold dear.
